

UAE Entry Requirements • Cats & Dogs

It's not as overwhelming as it looks. We promise!! 😊

- **Age:** Minimum 12 weeks. (However, also see below.)
- **Microchip:** Implant date must be prior to the date of the rabies vaccination.
- **Fully Vaccinated** (*vaccination book or certificate must contain full pet and vaccination details*):
 - Rabies Vaccination: there is no mandated post-vaccination wait-period, but some countries will not issue the required official travel health certificate prior to 21 days elapsing following the vaccination date - i.e. the vaccination must be administered no earlier than 12 weeks of age.
- **PLUS:**
 - Dogs: distemper, canine hepatitis, leptospirosis (canicola and icterohaemorrhagiae), and parvovirus (DHLP).
 - Cats: feline rhinotracheitis, calicivirus and panleukopenia - usually administered as a combined vaccination.
- **Rabies Blood Test:** Required ONLY if your pet is originating from a country NOT listed here:

Albania, Australia, Austria, Andorra, Bahrain, Barbados, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Falkland Islands, Fiji, Finland, French Polynesia, Germany, Greece, Hong Kong, Iceland, Ireland, Italy, Jamaica, Japan, Korea, Kuwait, Latvia, Liechtenstein, Lithuania, Macedonia, Maldives, Malta, Marshall Islands, Mauritius, Micronesia, Montenegro, Netherlands, New Caledonia, New Zealand, Palau, Portugal, San Marino, Seychelles, Singapore, Slovenia, Spain (with the exception of Melilla), Suriname, Sweden, Switzerland, the Bahamas, United Kingdom, Vanuatu.

 - Minimum test pass result of ≥ 0.5 ml required.
 - The blood-draw must take place no earlier than 21 days after the date of the rabies vaccination, if a primary or lapsed vaccination.
 - There is no mandatory post-test wait-period and the test is valid up to 12 months provided that the rabies vaccination upon which the blood was drawn is still valid at the time of arrival in the UAE and that no further rabies booster vaccinations have been administered.
 - If travel will be via one of the European Union (EU) countries, the EU's requirements must also be met, resulting in a change in the above wait periods. It is important that you discuss this with your pet export agent at origin.
- **UAE Import Permit:** Maximum of 2 pets per person/passport if pet owner is handling personally. DKC can gain for an unlimited number of pets per person/passport.
- **Internal & External Parasite Treatments:** Required within 14 days of travel. These must be administered and documented by a registered veterinarian.
- **Health Certificate:** Must be an official government/ministry health certificate. For more info, see: https://www.dkc.ae/docs/All_About_Health_Certificates.pdf
- **Be Original !!:** All required documents must be originals, not copies.

UAE Banned Breeds: All Pit Bull Terriers and all Mastiff breeds; Staffordshire Bull Terriers (English & American); American Bullies; Japanese Tosa Inus; Wolf/Dog Hybrids... as well as any crossbreed or hybrid of these breeds.

• **ONLY DKC !** •
Others wait. We walk straight in.

DKC is the **ONLY** pet relocation company in the entire UAE with full access to the secure animal holding facilities at both Dubai airports. For YOU, this means that we are the **ONLY** relocater able to immediately update you on how your pet is doing once they have arrived at the holding facility - usually within 1.5 to 2 hours of your pet's flight arrival.

These secure special-access areas are where your pet will be held upon arrival until the official Customs clearance processes are fully completed, which usually takes between 3.5 and 5.5 hours. Imagine having to wait that long for an update!
